OASA Return to Play Guidelines

1. PURPOSE

The purpose of this document is:

- *to outline plans, guidelines and procedures for a safe Return to Play*
- *to address **FIVE (5)** major areas of concern with respect to physical distancing*
- *to provide a certain level of comfort to participants by outlining steps to be taken to help maximize their safety and well-being*
- *to outline OASA tournament or play down specific rule variations and criteria that must be followed*
- *to allow for any enhanced OASA / Event protocols that we might develop or that the province or municipalities may require us to do to rent the space*

The items listed in this document are suggestions of recommended safeguards for restarting softball activity in Ontario. Provincial / Territorial Associations, Leagues, Tournament Hosts, Staff, Players, Coaches, Parents, and Spectators must continue to follow Federal, Provincial and Local Governmental guidelines. Leagues or Associations are free to make their guidelines more or less stringent, as long as they are approved by local authorities. Remember that information and recommendations during the pandemic are very fluid and are subject to change.

These protocols will be the responsibility of the Association, Home Team, Coach, and Tournament Hosts. If required, they may need to be approved by the City / Municipality in which the tournament or event is being held.

The Provincial government is regularly updating guidelines that can be found through the following link (<https://www.ontario.ca/page/covid-19-response-framework-keeping-ontario-safe-and-open>).

The latest guideline release was on January 20, 2022. Within that release there were steps outlined to cautiously and gradually ease restrictions starting on three target dates.

(<https://news.ontario.ca/en/release/1001451/ontario-outlines-steps-to-cautiously-and-gradually-ease-public-health-measures>)

Effective January 31, 2022 capacity limits were revised to allow increasing or maintaining capacity limits at 50 percent in indoor public settings, including non-spectator areas of sports and recreational fitness facilities, including gyms. Spectators at sporting events were also allowed to operate at 50 percent seated capacity or 500 people, whichever is less. Enhanced proof of vaccination, and other requirements would continue to apply.

Effective February 21, 2022 plans are to remove capacity limits in indoor public settings where proof of vaccination is required, including indoor sports and recreational facilities. Spectator capacity would also be permitted at 50 percent. Enhanced proof of vaccination, and other requirements would continue to apply.

Effective March 14, 2022 plans are to lift all capacity limits in all indoor public settings. Proof of vaccination will be maintained in existing settings in addition to other regular measures.

Effective January 4, 2022 the use of the enhanced COVID-19 vaccine certificate with QR code and the Verify Ontario app has been required where proof of vaccination is required.

OASA Return to Play Guidelines

The OASA will continue to assess how any government guidelines affect our ability to hold provincial tournaments or play downs and we will contact all affiliated teams directly to discuss this, if necessary.

2. ENTRY

All persons entering the park are required to wear a mask / face covering / bandana and must agree to be screened by a representative from the Host for tournaments or the Home team for play downs, if not, no admission.

Prior to being permitted to participate in any OASA event, all players, coaches and managers must have registered with OASA, including completion of a COVID-19 Declaration.

Signage must be well displayed in the entry area with regard to the spreading of the virus, proper hygiene, information on physical distancing and what to do if you have any symptoms.

Return to Play Guidelines / Safety Plans must be posted in a conspicuous location and made available upon request.

Wellness testing inclusive of the Declaration each time the athlete, coach, parent etc. attends a game, practice, or tournament. If a person is denied entry, then a procedure / handout should be in place to encourage that person to visit a testing facility immediately and ensure that you collect that individual's complete contact information. (Host or Home team responsibility)

During this process individuals must also be asked if they are experiencing any symptoms (new or existing cough, fever, sore throat, respiratory illness, difficulty breathing, and have they been in contact with anyone who has COVID-19 and have they travelled outside the country in the past 14 days) to make a determination to help ensure the safety of all individuals involved.

- Questions that frontline workers ask before entering/taking care of patients to ID potential COVID-19
- Ideally have an app or link available or a checklist for teams / coaches for participants to do a self assessment before they leave their residence / hotel.
- Have coaches re-assess all players at the field before each game.
- Limit entrances to 1 or 2.
- Any player, parent, coach, umpire, etc. showing symptoms should not show up at the park but if they fail the screening then they would not be permitted for the tournament or game and the team / coach would be responsible to ensure the person showing symptoms is isolated from all others and isolate those who were in contact before discovery.

There is also an expectation that any individual experiencing symptoms should take the initiative and stay home.

Entry ways to field/diamond area(s): (Host or Home team responsibility)

- Considerations in this area will be dependent on the type/location of the complex or playing fields.
- Emphasis should be placed on providing safe travel areas to reduce contact between individuals entering and exiting the park / complex.
- Must monitor for mass gathering numbers in park for all teams, leagues. For tournament play this would be the responsibility of the Tournament Director(s) or the Host Association.
- Should not use indoor facilities and should plan for safe use of pathways / trails. Controlling crowds by having the pathway split into 2 specific directions, as in grocery stores.
- The use of caution tape may be recommended to safely mark off areas that should not be accessed, as well as helping to provide marked areas for travel to and from diamonds, etc.
- Volunteers will all need PPE and may need multiple tables to meet the distancing rules, all work areas to be taped off.
- PPE defined as mask / face coverings and sanitizer.

OASA Return to Play Guidelines

Team and Player-Sign In (each Coach / Team Manager's responsibility)

- A coach / team manager will be required to provide all team roster information to the OASA registrar prior to the tournament / play downs to avoid the requirement to have players sign in individually.

Players, Coaches and Spectators Contact Information (Coach / Team Manager's responsibility)

- The contact information (name, email or phone number) for all players, coaches and spectators in attendance for each game or practice must be recorded and retained for 30 days after the activity in case it is required for contact tracing in relation to an actual or potential case of COVID-19 being detected.
- Active Screening including confirmation of vaccination status as per the OASA Vaccination Policy is required for all participants.

Entry to concessions, washrooms, food areas (Host or Home team responsibility)

- Entry ways should be properly marked to ensure the 2 metre physical distancing rule can be followed, or temporary closure of concession/washroom facilities may be required.
- Washrooms, maintain no lineups, clean frequently (i.e., every 2 hours), must have hand sanitizer in each, possibly have more porta potties, to prevent line ups.

Hand Sanitization (Host or Home team responsibility)

- The establishment of hand sanitization stations may be applicable for some complexes / facilities, but at a minimum they must be on the bench and equipment area of every team for all training, practices, games and tournament play.
- Hosts would be responsible for hand sanitizer in each washroom, at concessions stands, at souvenir stands and at each entrance / exit at least. Ideally hosts would also provide sanitizer on each bench as well.
- Teams are required to bring their own personal supply of hand sanitizer to be able to participate.
- Frequent hand sanitization will be stressed for players in all league / tournament play and is mandatory.

3. OFF-FIELD

Concession areas / Washroom facilities (Host or Home team responsibility)

- Concessions: may only be allowed to open if they can provide pre-packaged options, as well as the ability to provide consistent sanitization and abide by social distancing guidelines. Would be difficult but workers with appropriate PPE, and line ups must adhere to the 6-foot physical distancing intervals as in grocery stores. Ideally payments to be made by debit/credit to minimize cash transactions.
- Food areas: Dining room / seating areas are recommended to remain closed to prevent gathering of individuals. If open, eating surfaces will require consistent sanitization.
- Washrooms: Will require consistent attention and sanitization. Leagues may opt to keep washroom facilities closed during play to reduce possible contamination. Must be cleaned / fully sanitized regularly (i.e. at least once per every 2 hours by the host).
- Team snacks, picnics, shared lunches, BBQ's are not allowed.
- All garbage cans must have closed lids for the disposal of sanitizing materials, tissues, and other refuse.

Medical Personnel (Host or Home team responsibility)

- If medical personnel are present, they will need to have had their own training, and may be able to provide suggestions on further safety considerations and must have their own PPE.
- A separate area / tent for treating athletes or anyone who is injured must be available that ensures physical distancing requirements are maintained.
- Medical team will need to be fully equipped with PPE to be able to be in close contact with the athletes, this includes team trainers etc.

OASA Return to Play Guidelines

Playground areas (Host or Home team responsibility)

- Guidelines for these areas should be consistent with local guidelines / regulations. Suggestion for tournaments is to leave them closed, but if they are open as part of the city property, then the numbers in the playground will be included in the mass gathering numbers for your facility.

Vendors (Host or Home team responsibility)

- All vendors will be asked to follow outlined guidelines and regulations set out by the event organizer(s) and the Province of Ontario.

Hotels (each team will be responsible for their own accommodations)

- Hotels will have their own procedures and guidelines in place to ensure the safety of their guests. Hotels may not allow previously accepted practices (such as sharing of rooms for X# of individuals).

Vehicles (Host or Home team responsibility)

- For shared vehicles (i.e., golf carts), frequent sanitization will be required. Provision of disinfectant wipes for each vehicle would be required by the host.
- Carpooling should be avoided. Only family members should travel together to and from games / tournaments.

Headquarters / Registration (Host or Home team and OASA responsibility)

- These locations must remain restricted to use by Host / OASA Tournament personnel only and roped off or restricted. Guidelines must be posted to keep players / coaches away from these locations as much as possible.
- Teams are to provide all necessary information required to participate electronically at least one week prior to the tournament or start of the play downs, or on an earlier date if requested by OASA. For OASA events this includes the following:
 - Team roster including players and coaches and caring person (plus a name and # for immediate contact if necessary)
 - Valid identification showing the players date of birth.
 - COVID-19 Declaration by everyone on the roster (includes a parent / guardian for minors)
 - Waiver of Liability from everyone on the roster (includes a parent / guardian for minors)
 - Rowan's Law Concussion Code of Conduct from all coaches, assistant coaches, managers
- Approximately 7 to 10 days prior to the tournament the OASA will coordinate a conference call or video meeting with all teams scheduled to participate in the upcoming tournament to review expectations and responsibilities of everyone. This meeting will also include an umpire representative, if at all possible, to address any rule questions.
- The draw board will be viewed only at a distance of 2 metres and only updated by 1 or 2 designated OASA or Host staff to restrict the number of people in contact with it.
- For Play Down games teams will coordinate all logistics with the OASA Convenor assigned to their series at least 1 week prior to the start of the series.
- Registration tables must be disinfected regularly, such as after each use and personnel change.

Scorekeeping (Host or Home team responsibility)

- Scorekeeping, announcing, spotters all need 2 metres distancing, or they must wear masks, and may need separate tables that must be disinfected after each use and personnel change.

Banquets / Ceremonies (Host or Home team and OASA responsibility)

- Banquets, fireworks, and opening ceremonies are allowed.
- Closing ceremonies are allowed if physical distancing is maintained.

4. ON-FIELD

COVID-19 signage should be explicitly presented in the park on fencing (Host or Home team to verify with the city when they will install these).

Hosts and OASA tournament convenors will need to check with local officials prior to the event to ensure that maximum numbers of people allowed to gather are understood and maintained throughout the tournament.

OASA Return to Play Guidelines

Hand Sanitization (team responsibility)

- Should be done consistently throughout the game.

Coin Toss / Rules and Exchange of Line-up Cards (OASA and team responsibility)

- Ground rules procedure, one representative from each team should be allowed at home plate for the plate conference with 2 metre physical distancing always maintained by all parties.
- Coin flip – done either virtually or with social distancing.
- Line ups are able to be shared with the other team, the umpire and the scorekeeper.

Bats (team responsibility)

- The most desirable scenario is that there will be no sharing of bats. If bats are to be shared between players, they must be sanitized by a coach / bench adult before each player uses it.
- Each player must have their own helmet and or facemask which should be cleaned after each use.
- Only the offensive team will remove a bat from the field, i.e., the batter if unsuccessful in reaching base in the at bat or a designated team person with appropriate PPE if they do reach base.
- No bat boys / girls allowed.
- Picking up the hitter's bat will be the responsibility of the bench coach and must be cleaned after each use.
- In the event there is a bat near home plate that poses a danger for the players during game play the umpire will kick it out of the way.

Player's Equipment (team responsibility)

- No gloves on fence, no bringing out gloves, batting gloves, distancing of player's bags of 2 metres.
- Players are to be reminded to not share equipment and keep each individual's equipment isolated – 2 metres distance and reduce coming into contact with the equipment of other players.
- Personal batting gloves are permitted. They are not to be shared with any other players. Hand washing / sanitizing is preferred as it is deemed to be more efficient.
- Each catcher must have their own personal equipment that should be disinfected after each game.
- Sharing of water bottles is not allowed.
- Label all water bottles and personal equipment so there is no confusion.
- AT ALL TIMES disinfect and sterilize your own personal equipment

Protective Face Masks / Helmets (team responsibility)

- There should be no sharing of protective face masks or helmets at any time.
- Face shields are also allowed and may be preferred as it provides protection for the players' eyes.

Masks (non-protective) (team responsibility) (see section 11 – How to wear a mask)

- Face masks/coverings for the purpose of reducing potential virus transmission will be a required stipulation for entering the park / complex / facility.
- For all players, coaches and umpires a mask / face covering / gaiter is strongly recommended, but not mandatory for games or practices.

Balls (defensive team responsibility)

- The defensive team will manage (OASA to supply 1 new ball per team per game) their own balls while in the field to reduce contact with individuals on the opposing team. No one on the offensive team is to retrieve or touch the ball. Additional official game balls are to be supplied by each team for each game.
- The defensive team will retrieve all balls including homeruns and foul balls unless a designated ball chaser for each team is used.
- Each team should have a bucket, soap and water, cloth and towel, or spray sanitizer and be responsible for cleaning their balls between innings. A designated individual should be identified by each team. For practices the coach will be required to determine how frequently to 'sanitize' the balls.
- Umpires will not handle the balls at all.
- Clean water / water source must be provided by the Association, Home Team, Tournament host or city / municipality in which the event is being held.

OASA Return to Play Guidelines

General Protocols (teams' responsibility)

- No handshakes, team huddles, high fives, etc. allowed. Suggest a new show of respect for the opposition at a safe distance.
- Protests are to be held at a safe distance. Any player / coach / umpire getting heated and yelling will be removed from the venue.
- Defensive conferences at the pitcher's circle to be limited to one person who must remain outside the circle.
- Mound visits with catcher / coach both must remain outside the circle and the catcher must raise their glove up in front of their face if they are not wearing a face mask or covering.

No sunflower seeds, gum chewing or spitting (teams' responsibility)

- General spitting will be discouraged for all participants, both on and off the field. It is recognized that this will be difficult to enforce.
- Sunflower seeds / chewing tobacco or gum will be handled with a zero tolerance policy that will become enforceable through ejection from the game and / or removal from events.

Final Game Sheet / Lineup cards (teams' responsibility)

- If lineup cards are required to be submitted following the completion of the game, these should be submitted electronically by sending a picture of the card to the appropriate party or dropped into a designated container.

Pre-Game / Post-Game Huddles / Handshakes (teams' responsibility)

- These should not be conducted at any time.
- They will not be allowed or required before or following games at any level.
- Give yourself space from your fellow teammates and coaches (No tight team huddles / touching).
- Allow larger circled team huddles and beginning of game cheers, allow distance when giving advice one on one, prioritize being engaged during conversations while giving yourself space.
- Do not share skin on skin contact (No high fives, handshakes, elbows, etc.).
- Air fives, cheers for certain situations and accomplishments, hand gestures and a group cheer thanking your opponent for participating.
- Create a method to show support without having to high five – i.e., a practiced in sync clap / collectively as a team (touch the dirt / do a cheer / synchronically a hand gesture)

Players on the bench / dugout (team responsibility)

- Will need to be consistent with government guidelines relating to the maximum number of individuals allowed to gather in a given area. Recommend 1 coach / adult at each end with a bench adult / manager / coach = total of 3 max.
- If 3 or fewer players on the bench no masks are required. If 4+ players are on the bench all players and coaches must wear a mask.
- Players may be required to sit behind the bench / dugout to help maintain safe distances between them.
- Make it a priority to provide your team with the essentials to stay healthy – hand sanitizer, disinfecting wipes, disinfecting spray, etc. Also, make it mandatory for players to disinfect everything that was used during participation.
- Keep a hand sanitizing station in your team dugout. This will allow players and coaches to have the option to feel like they have the resources they need quickly and safely without having to leave the diamond. Please stress to your players that this is a MUST (exception: their own safety helmet and mask).
- Do not eat in the dugout (seeds, spitz, snacks, etc.)

OASA Return to Play Guidelines

Exit from the playing field during a game (team responsibility)

- During the game, players entering and exiting the playing field should do so in an orderly fashion that allows a 2 metres physical distance to be maintained between players as much as possible.
- Any player not required to be on the field should not enter the playing surface (e.g., homerun celebrations).

First and Third Base Coaches distance, hand taps (team responsibility)

- Coaches on the playing field must remain a minimum of 2 metres away from the base they are coaching to prevent contact with the defensive player. Also, coaches are not allowed to engage an offensive player with high-fives or any other physical contact.
- Field dependent: Coaches may be asked to coach from outside of the playing field if a safe distance is unable to be maintained.

Injured Player (team responsibility)

- If medical personnel are on hand, injured players should be dealt with primarily by these individuals, unless further assistance is requested.
- The number of individuals attending to an injured player should be limited to the number necessary based on the severity of the injury. Sufficient first-aid kits should be provided that include latex gloves and facemasks to help increase the safety of their interaction with the injured player.
- Players injured during the game must be positioned in a safe area or at the other end of the dugout. For younger ages, the parent will need to remove the child from the field and place them in a safe place respecting all social distancing rules. (Recommend the bleachers since they will be off limits or have restricted access for spectators)

Pitching Conferences / On-Field Conferences (team responsibility)

- Will need to be reduced to coach / pitcher conferences only, if not entirely removed.

Score sheets (team responsibility)

- Scores are to be reported electronically to reduce congestion at headquarter locations. If not score sheets are to be dropped in designated container.

Call Challenges / Protests (team responsibility)

- Challenges / Protests may be made as long as the challenge is made by a recognized coach in a controlled and orderly fashion, and the coach / umpire are able to remain at a safe distance in which neither is put at risk.

Bat Testing / Checks (Umpire's responsibility)

- Bat testing prior to the start of games / tournaments will be done using a visual check done by the umpire crew to ensure all bats have the appropriate thumbprint, certification stamp and do not show any visible signs of damage.
- Bat testing / stickering done by leagues / tournament organizers will be postponed for the season to prevent unnecessary contact with equipment.

Post Game Bench / Dugout Cleaning (Host or Home team responsibility)

- Emphasis will be placed on mandatory cleaning and sanitization of the bench area following the completion of the game. Access to extra garbage bags / recycling containers may be a request made to specific parks / municipalities. Cleaning of the bench / dugout will be the responsibility of the host or home team if it is just a practice or an exhibition or non-tournament game.

OASA Plans for 2022

- To hold a full slate of OASA tournaments for all age groups, if possible, following all current provincial and public health guidance and restrictions.
- Hold tournaments or play downs, depending on host availability and the number of teams that affiliate in each age group while always adhering to the maximum gathering limits for participants and spectators.

OASA Return to Play Guidelines

5. SPECTATORS

***PLEASE NOTE: The allowance of spectators will be dependent on the guidelines set out by the Ontario government and local health officials. For all age groups we will only permit competition / practice if we can adhere to local mass gathering allowances. OASA has set a maximum of 200 spectators per diamond.**

Screening (team responsibility)

- All spectators should self assess prior leaving home / hotel to attend any games. If they have any symptoms, they should stay home.
- All spectators entering the park must answer the COVID-19 screening questions. If any of the questions are failed, entry into the park will be denied.
- All spectators will be required to follow OASA's Vaccination Policy that is in force at the timing of the activity.
- All spectators must provide contact tracing information to the host / home team for all games or practices attended.

Seating (team responsibility)

- All spectators who are seated in the bleachers (inside 1st and 3rd bases and behind home plate) must wear a mask at all times.
- Spectators in most locations will not be allowed to watch the game from inside the infield baselines. It will be required that any spectators (if allowed) will need to bring their own chairs or blankets and sit down the foul line or outside of the outfield fence. Players who are not required to be present for a game should be considered spectators and will be required to follow spectator guidelines. (i.e., injured players attending to support their team).
- All spectators must adhere to physical distancing requirements for anyone outside of their immediate family that they are residing with.

Hand Sanitization (team responsibility)

- Established hand sanitization guidelines must be followed by all spectators. A personal / household supply of hand sanitizer is required.

No sunflower seeds, gum chewing or spitting (team responsibility)

- As is consistent with guidelines for participants, spectators will not be allowed any seeds, gum, or chewing tobacco and will be asked to remove it from the area.

Restaurant / Bar / Concession / Playground Area (Host responsibility)

- Spectator use of these areas will be dependent on the operational guidelines of these areas / facilities as outlined by facility management / municipal governments.

Crowds (team primary responsibility – Host and OASA secondary responsibility)

- Crowding will not be tolerated. Individuals will be asked to respect the 2 metre physical distancing rules at all times. When physical distancing is not being observed and gatherings of individuals become too large, they will be asked to separate.
- Current guidance states a maximum of 5000 spectators per venue. OASA recommends a maximum of 200 spectators per diamond. If >200 spectators per diamond are allowed everyone must wear a mask and active contact tracing must be undertaken. Local municipalities or public health units may impose alternate capacity limits that must be adhered to by all in attendance at the event.

6. UMPIRES

Umpire Equipment (Umpires)

- The plate umpire will not be required to wear a mask / face covering even though
- Umpire's equipment / clothing changes may require multiple tents or a limit to the number inside a tent at any given time. Umpire clothing is not to be hung in the park or public areas, etc., but must go into their own vehicle.

OASA Return to Play Guidelines

Player Equipment (removal of bat, handing to on-deck batter) (offensive team responsibility)

- Removal will not be considered the responsibility of the umpire. Specifically, the removal of bats from the field will be the responsibility of the offensive team based on guidelines outlined previously in the 'On-Field' section.

Base Umpire / Other Field Umpires (Umpire's responsibility)

- Must be able to position themselves in a position at least 2 metres away from any player.

Umpire Conferences (Umpire's responsibility)

- Umpire conferences may be allowed to take place, as long as they are conducted in a safe manner such that the umpires can be away from any players and can maintain a 2 metre physical distance between one another.

Call Challenges / Protests (team and Umpire's responsibility)

- As mentioned, challenges / protests can be made by a coach in a safe and controlled manner. The umpire will have the authority to eject said coach if they feel their safe distance is being encroached upon and the coach has not respected any request to remain at a safe distance.

Water Bottles (Umpire's responsibility)

- No sharing of water bottles between umpires, and refillable water bottles will be strongly recommended.

Hand Sanitization (Umpire's responsibility)

- Umpires will be subject to any hand sanitization guidelines provided by the league / tournament organizer.
- Umpires will be asked to supply their own personal hand sanitizer.

Responsibility (Umpires and team responsibilities)

- Umpires are responsible for enforcing on-field guidelines during the game.
- Coaches and team officials are responsible for enforcing dugout and off-field guidelines related to their players and parents, before, during and after games.

Lightning / Inclement Weather (Umpire's responsibility)

- If the umpires suspend or cancel a game due to lightning / inclement weather all persons must return to the vehicle in which they arrived at the park, no congregating under tents, shelters etc.

Other Overall Considerations

- Restaurants – are there enough open locally, or with enough seating given social distancing to feed teams etc.

7. Mass Gathering Limitations

Mass gathering limits are set by the province, however, each local municipality or public health unit may set the limit within their jurisdiction.

January 31, 2022 – February 20, 2022 – indoors max of 10, outdoors max of 25, 50 percent on indoor sports and recreational facilities, spectator cap the lesser of 50% or 500

February 21, 2022 – March 13, 2022 – indoors max of 25, outdoors max of 100, no limit on indoor sports and recreational facilities, spectator cap at 50%

March 14, 2022 on – indoors max of 50, no outdoor limit, no capacity limit on indoor sports and recreational facilities, no spectator cap

8. Reporting of Suspected COVID-19 Cases

- Refer suspected cases for COVID 19 testing.
- Predetermine emergency contacts and exact protocols with local authorities.
- Establish isolation area - on-site medical treatment clinics/facilities where an individual can be initially assessed.
- The isolation area should be equipped with the necessary supplies determined by the local authorities.
- The medic / personnel attending symptomatic persons should wear FFP2 masks, rubber / disposable gloves, and glasses or visors, which shall be disposed of immediately after use and the staff shall cleanse thoroughly afterwards.

OASA Return to Play Guidelines

- The symptomatic patient should be given a surgical mask before carrying out a careful evaluation.
- In the case of a symptomatic patient (Temperature 37.5, sore throat, runny nose, breathing difficulties and flu-like symptoms) based on clinical data, the case should be reported to local health authorities following the pre-established organizational channels, recommending, when possible, to perform a COVID 19 test.
- Medic / staff must proceed, immediately after evaluation, with personal and area cleaning protocol as established by the local authorities; Safe Return to Baseball / Softball – Covid 19 Prevention Guidelines.
- If the subject does not fall within the definition of “case” or “suspect case”, they shall be sent home with the indication to contact his / her own physician.
- If a medic/personnel member falls within the definition of “case” or “suspect case”, it shall be reported immediately to local health authorities following the pre-established organizational channels.

Participants who become ill with signs and symptoms of COVID 19 while playing/on-site

- Activate Emergency Action Plan (EAP) COVID 19 Medical and Public Health Response Procedure for the specific venue.
- Participants (personnel, players, coaches, managers, spectators, etc.) who become ill at the field will be isolated and removed from the activity / event.
- OASA and / or the Host will designate an area at each field for isolation purposes.
- The activity/event will be shut down while:
 - Equipment (dugouts / bases) are cleaned and sanitized.
 - Participants sanitize their hands. (see section 10)
- The Activity Leader (coach, captain, OASA personnel, host) will advise the unwell participant to don a face covering or mask (if available) on their exit from the field.
- The Activity Leader (coach, captain, OASA personnel, host) will advise the unwell participant to go home immediately (in a private vehicle, if at all possible) and self-isolate, and contact Telehealth Ontario (1-866-797-9000), their health care provider or visit their Local Health Department website to determine if further care is needed and learn about assessment centres.
- If leaving the field can not be done immediately (waiting for a private vehicle, or a parent / guardian), the participant will remain in the designated isolation area.
- The Coach / Manager / team Medic will advise OASA, so that the PSO can follow up with the unwell participant, and aid public health authorities with potential contact tracing in the event the unwell participant tests positive for Covid 19.
- If an OASA member at any OASA activity/event tests positive for Covid 19, their local public health unit will follow up with close contacts, who may include other OASA members. Other Team members who came in close contact with the infected participant may be required to self-isolate.

OASA will advise all team contacts, umpires and volunteers should any COVID-19 cases be advised to us. They will be advised to contact Telehealth Ontario (1-866-797-9000), their health care provider or visit their Local Health Department Website to determine if further care is needed and learn about assessment centres.

COVID-19 positive cases can only return to play / practice / participation after:

- 1) A doctor's note is provided and received by OASA leadership, or
- 2) The local public health authority/unit has advised that the individual is considered recovered per Ontario/Local Public health guidelines and cleared to return to play/work

OASA Return to Play Guidelines

Note: The privacy of OASA members will be maintained; participants who may have been in close contact with a positive COVID 19 case will only be advised that someone at the training session / game / tournament has tested positive.

We extend our immense gratitude to all essential and front line workers. Be Safe.

9. Activity Leader Checklist

Prior to Departing for the Field

- Complete your personal wellness screening / checklist (COVID-19 Pre-Tournament Declaration questions).
- Sanitize all equipment that you will be using at the field.
- Ensure you have hand sanitizer in your bag for your athletes and to sanitize equipment at the field.
- Ensure you have your own water bottle and it is appropriately labelled with your name.
- Check your expected attendance listing (remember only Provincial Mandated # of participants including yourself) and remind those who are attending to complete their pre-departure wellness screening.

At the Field – On Arrival / At Check-in Location

- Arrive and set up at the identified Check-in location or a neutral location only with members of your team.
- Complete your on-field wellness check of all of your players.
- If all your athletes / coaches have passed all of the COVID-19 Declaration questions satisfactorily you are clear to direct them to the sideline area where they can put their belongings (remind them to keep 6-feet of spacing between their belongings and others' belongings).
- If an athlete / coach does not “pass” the screening, advise them to go home, and recommend that they call telehealth / their medical health provider or go to an assessment centre.
- Direct athletes / coaches to sanitize their hands on their way to the designated sideline area.

During the Session

- Maintain 6-foot distancing within the training session / games.
- Friendly reminders may be necessary at first.
 - No high-fives.
 - No team huddles.
- Avoid touching your own face as much as possible.
- Group participants into smaller groups to minimize points of contacts.
- Schedule breaks to hydrate and in that water break, sanitize equipment and wash / sanitize hands.
- If someone shows any symptoms (aside from things like coughing after swallowing a bug, sneezing due to allergies, etc.) during the session, remove them from the group, advise them to call telehealth / their medical professionals or to visit an assessment centre.

After the Session

- Encourage all participants to sanitize their equipment and hands.
- Sanitize any bats and other equipment (ex. helmets) before putting them back in their bag.
- Ensure all participants put any garbage / waste (water bottles) they may have into the garbage / waste bin at the venue, or to take it with them and dispose of it at their home.
- Ensure all participants leave the field and the venue in a timely manner (no congregating after in the parking lot).

OASA Return to Play Guidelines

OASA Return to Play Guidelines

11. COVID-19 Pre Tournament Declaration

OASA will require all players, coaches, team officials to complete a COVID-19 Declaration as part of their registration process to participate in any OASA event.

12. Tryouts

- All tryouts must adhere to maximum athlete and spectator limits as per any provincial or local public health guidelines.
- All tryouts will be limited to a maximum of 50 participants per session.
- Attendance records must be taken at all tryouts for contact tracing purposes, if necessary.
- Spectators will be limited as per the capacity allowed based on the type of venue and the date.

13. Vaccination Policy Synopsis

For detailed information, please see the full Vaccination Policy which is posted on the OASA website.

- The purpose of the vaccination policy is to continue to protect the health and safety of all OASA Members by requiring that participants be fully vaccinated against Covid-19 as a condition of participating in OASA Sanctioned Activities in indoor or outdoor facilities. Fully vaccinated means 14 days after an individual has received two doses of an approved Covid-19 vaccine.
- OASA will follow public health guidance on measures for vaccination policy and reserves the right to amend the policy in response to any new guidance or regulations passed by federal, provincial and local public health and governmental authorities.
- The OASA Vaccination policy applies to the following participants:
 - Players 12 years or older / Team Ontario staff / Association Executive / OASA Officials / Volunteers / Instructors
 - Individuals who have applied to and been approved by OASA for vaccination accommodation. Please see the Application for Vaccination Accommodation form on the OASA website.
- At present, this policy does not apply to players under 12 years of age, or spectators in outdoor settings. If a vaccine for children under 12 is approved by Health Canada, the OASA will re-evaluate this policy.
- All participants will be required to provide proof to their Association designate who will record proof of vaccination. The Association will maintain a list of all participants who have provided proof of vaccination.
- Where health regions and facility operators have imposed stricter requirements, all OASA members will be required to follow the guidelines of the region in which they are participating.
